Needlestick prevention that meets your needs

- Virtually eliminates exposure
- Single-handed, passive activation
- Hands remain behind the sharp
- Integrated safety mechanism
- Prevents recapping and needle removal
- Remains safe through disposal
- Easy to use, requires minimal training
- Safe and effective for patients

A study comparing the effectiveness of passive SED (safety-engineered devices) with that of active SED, concluded that passive SED (such as the VanishPoint® syringes) significantly reduced the needlestick injury rate.

Attached needle design:
- Maintains a closed system
- Prevents leakage and contamination
- Reduces deadspace
- Prevents unnecessary needle changes

"Changing needles between drawing vaccine from a vial and injecting it into a recipient’s is unnecessary." [1]

Effectively reduces the risk of needlestick injuries

5ml and 10ml VanishPoint® syringes are available with a variety of needle lengths and gauges. For a complete list, please contact RTI or visit our website at www.retractable.com.

Safe for you and your patients
VanishPoint® insulin syringes

**NOW AVAILABLE WITH**
- 5mm and 8mm needles
- Half unit increments for accurate small dose delivery

**EASY, ONE-HANDED ACTIVATION**
- Pre-removal activation prevents exposure to contaminated sharp
- Needle retracts directly from patient into syringe

**NO CONTAMINATED SHARP EXPOSED**
- Triple beveled, lubricated needle provides patient comfort
- Activate VanishPoint® syringes require less disposal space than other safety syringes and prevent disposal-related injuries.

**THE VANISHPOINT® ADVANTAGE**
Effective safety with automated retraction technology

1. Use standard procedure for drawing up medication.
2. Prepare and give injection using aseptic technique according to institutional policy.
3. While the needle is still in the patient, fully depress the plunger to activate retraction.
4. Dispose of VanishPoint® syringe in an appropriate sharps container.

**Other available safety products**
- EasyPoint® Needles
- VanishPoint® Blood Collection Set
- VanishPoint® Blood Collection Tube Holder
- VanishPoint® IV Catheter
- Patient Safe® Syringe
